In response to the Examiner's letter mailed March 28, 2002, Applicants request that the application be amended as follows:

**In The Claims**

✓  
Please amend Claim 1 as follows:

1. [Amended Version] In a free fall simulator wherein a cylindrical primary wall is provided, said primary wall defining a chamber, means for generating a column of air under pressure in said chamber, said column of air moving from bottom to top, the pressure being sufficient to support one or more flyers therein, said primary wall having a surface, said surface being contiguous with and defining the
